Recep Tayyip Erdogan is the much talked about issue and the most stirred name in the current world. In the present global politics the name which is being most pronounced everywhere is nobody but Recep Tayyip Erdogan. The mark of the leadership of Erdogan who exerts profound influence upon everywhere from Morocco to Rabat, Mashrik to Magrib and the West to East is being noticed. He meanwhile has been able to prove his charismatic leadership in the Middle-East, Africa, Balkan and Caucasus as well as South & East Asia above all the entire Europe including Latin America.

Once upon a time Turkey was dubbed as a sick man or country of Europe. Turkey never could erase this stigmatized title. Immediately after ascending power only Erdogan presents Turkey as a modern, developed & prosperous country from a sick country by making his country sturdy economically. From now Turkey has no least scope for anybody to defame Turkey as a sick country. Rather anyone recalls the name of Turkey with due respect & honor and considers it as a powerful and mighty country in the truest sense of the term. Recep Tayyip Erdogan deserves its lone credit. By dint of his dynamic & charismatic leadership he has been able to promote Turkey at the level of one of the super powers in the map of the globe.

From the economic points of view Erdogan has demonstrated the overwhelming achievement which is truly a matter of great bombshell. Once upon a time Turkey was not able to run without the loan from the World Bank & IMF. It is the same Turkey which extends its helping hand to other country economically let alone the loan of the World Bank & IMF. It has become possible owing to the Erdogan led government's epoch-making success in economy.

Erdogan is the most influential name in the current global politics.

threatening the Jewish state Israel. He exhorted the big powers including the UN for immediate solution of so far 75-year long Kashmir hitch. He extended his country's all-out support and assistance to Qatar cornered by the Saudi led Arab forces not least caring the Saudi government's threat. Alongside that he brought about the amelioration of the relationship between his country and Iran. He reopened all mosques and Madrasahs closed in Turkey. In the past wearing Hijab for women was quite forbidden in the country. Currently wearing Hijab (Veil) has been legitimized at the state level. The wife of President Erdogan Emine Erdogan herself always participates in various functions putting on Hijab. Turkey hasn't yet imposed least restriction on those women who want to lead their life without Hijab.

Erdogan has introduced an integrated education policy combination of modernity and Islam in lieu of the Western education system. He has constantly been striving for the Islamization of the country's education system. He has undertaken various programs to uphold the history and tradition as well as the golden history of the glorious Ottoman Caliphate before the nation and the globe.

Recep Tayyip Erdogan 's snooping to the international issues particularly the Muslim interest based relevant issues are on the rise steadily. He is playing a paramount role in different issues to lead Turkey to the superpower level. At present in four/ five countries his army, military experts and arms & ammunitions are being used actively and in the meantime he has attained a devastating success along with almost all countries involving in wars. After Kamal Ataturk today Erdogan's role is being appreciated in the world arena in respect of strengthening the Turkish economy. Today he has made the Turkish fragile economy a stout one.

Concisely, Erdogan is playing a role of Sultan in regenerating modern Turkey in the gallantry of the greatest Ottoman Caliphate.
