Preface

To the Readers...

Oneday Principal Iqbal Siddiquee abruptly told that the Lecturers in English of ISC had to make a seminar. Actually, It was in COVOD-time, The students were not allowed to come to School & Colleges. At that time, We; the teachers, were attending some Teachers-Training Seminars. So,

We were suggested by the Principal Iqbal Siddiquee to present our speeches. That's why, each lecturer had to prepare their own script. As I was a part of the English Department of ISC, I prepared one too and that one has been debuted today as **an Exceptional Book for English Lovers, Learners & Teachers.**

In fact, this book is not only for the English Teachers and English Learners but also it may be beneficial for those who are engaged in Teaching profession.

The book has been adorned with some attractive features like *The Role of English as World Language, English Language Awareness, Necessity of Improving our English, English Language Learning and Teaching, Communicative Language Learning & Teaching, Grammar Teaching & Learning, The Problems Faced by the Learners, Continuous Professional Development(CPD), Classroom Management, Motivation and The attitudes should be performed to the students by the teachers .*

Besides helping the English Teachers, this book may be amicably effective for the English Learners & English Absorbers...
